PROFILE

A reliable and organized professional with a strong motivation for results, backed by excellent communication and interpersonal skills. Effectively prioritizing tasks and maintaining a naturally positive attitude are key components of my core attributes. I am acknowledged for my active contributions to large-scale projects, including stakeholder communication. I always foster a human approach at work and cultivate a supportive team environment.

WORK EXPERIENCE

Full Stack Developer (*full-time*)

Feb 2021 – Sep 2024

IsraelDelCargo | Tel-Aviv, Israel

- Designed and developed a cross-platform flutter-based mobile app for iOS and Android using Flutter, tailored for efficient cargo tracking and delivery management.
- Created a corporate website leveraging React Native and Vue.js, ensuring user experience and robust functionality for logistics operations.
- Integrated Firebase services with SQFlite and MySQL databases to support real-time cargo tracking, delivery management, and data storage solutions.
- Managed end-to-end testing and deployment processes for Play Console and App Store, maintaining high code quality and system performance to ensure reliable and efficient logistics operations across all platforms.

Frontend Developer (*full-time*)

Nov 2019 – Jan 2021

Sellavi Global | Moscow, Russia

- Developed and customized e-commerce websites on the Sellavi platform, handling both frontends to provide tailored client solutions.
- Wrote custom code to improve functionality, user experience, and workflows, including features like authentication, catalog management, shopping cart, and payment systems.
- Collaborated with design and QA teams to ensure high-quality, visually appealing, and responsive websites.
- Delivered end-to-end solutions that aligned with client requirements and enhanced overall site performance.

Manual QA Tester (*full-time*)

Nov 2016 – Oct 2019

VisionLabs | Moscow, Russia

- Conducted quality assurance testing for facial recognition software, ensuring functionality and reliability.
- Created detailed test cases to identify and document software bugs and inconsistencies.
- Collaborated with the development team to address and resolve issues, enhancing software performance.
- Ensured high standards of accuracy and efficiency in facial recognition applications through
